OSCAR C. DIBBLE

Editor and Proprietor.

THE HERALD'S EDITORIAL POLICY is every page of the HERALD.

The Catholic Mirror announces the conversion to Catholicism of Mrs. Honor of Georgetown, daughter of Mr. G. Key, author of the Star Spangled Banner, and father of Philip Henry Key. Mrs. Honor is a widow of Chief Justice Taney.

A BEARER AID WALKER HARRISON.—The Boston Daily Atlas says: "A son of Edward Harrington, of this city, fell from a wheel a few days since, and was about sinking under a ship, when a workman, named Richard Dyer, jumped in and by the greatest exertions, succeeded in rescuing the boy. The father of the lad presented the workman a suit of clothes worth \$100. A moment's delay on the part of Mr. Dyer would have cost the boy his life."

A Spanish from the Columbia River of San Juan, says the Alhambra and Fontaine Waterhouse was burned on Tuesday together with \$2,000 worth of cotton and a large amount of merchandise on storage. Loss \$200,000. Amount of insurance unknown. The fire is supposed to have been the work of an incendiary.

The Rochester Democrat understands that the engines of the accommodation train which left Monday evening from Fairport Bridge, between that and the city of Poughkeepsie, which left this city at 10:30, while going about thirty miles an hour, a cow which was in the track was struck by the rear end of the locomotive and thrown upon the track in which position it was struck along two or three rods, and then thrown off an embankment of considerable height. The engine on her last and quietly walked off, leaving it in time, but showing signs of being seriously hurt. When the train reached the next station, it was found that the cow and the locomotive were covered with blood and hair.

ARMY OF BOWMAN.—The latest report of the studies of Bowman was an attack upon a large German Sunday School, the members of which were enjoying a picnic. Some ten or a dozen refugees crowded into the grounds where the five hundred children were collected, and proceeded to create a disturbance by knocking down a machine, smashing their knives and revolvers, and creating a panic among the children, who fled away, screaming. The male students finally turned upon the refugees and drove them from the place. On the return of the school by railroad, another attack was made, which was resisted by the police.

PANAMA.—It is rumored that Mr. David H. Nichols has taken down for the summer at the Clifton Springs Hotel. We hear the report from a source that ought to be well informed, however improbable it may seem that Mr. Nichols should appear at a fashionable watering place this season. If a rumor should reach us that he had accepted a contract, we should be glad to state it.

On the 21st of May, a blind man, named Michael Kennedy, eloped from Saratoga with Catherine McDermott. His wife lost track of the "gay couple" until last Tuesday, where she found him in the West Troy Police Court, under arrest for intoxication. She immediately entered a complaint against Catherine for eluding her, and the "gay" was arrested. The judge disposed of the case by sending Michael to the Alton House, and Catherine to the Penitentiary for six months.

A youth of 18, of Ohio, Mass., lost his reason through grief, for the loss of his mother, and shot himself through the head. Both mother and son were buried in one grave.

The Columbia's Washington correspondent writes that the Herald's story of the loss of one million dollars annually by counterfeiters and revealed postage stamps, is unfounded. There is no information here to that effect.

The Supreme Court of California, in a case between a citizen of that State and a Chinese Steamship Company, has decided that that country is not forbidden by the Constitution. The California will probably now begin to exact penalties on American ships.

The Wayne Democrat states that Mr. Wilkins, the Wayne Contractor in Section 10 of the Erie Canal, has abandoned his job. The Erie Canal falls under the charge of Nelson Drake of Poughkeepsie, who has been appointed Superintendent in place of Mr. Ford.

A FUGITIVE IN THE WOOD.—The Wheeling Times says Jacob Miller, a young farmer, who has for two or three years been living in that city, has started for his native land to join the service of his country. He is in the field. Every male child born in the country is registered and required to give, in times of peace, three years' service, and in times of war, six years to the King. If he leaves the country before arriving at 21 years, he has to give security for his return when he attains his majority. Hence young Miller had to go back or his father would have to pay \$500 as a forfeit to the Government.

A FUGITIVE.—A gentleman by the name of Barnes, a Spiritualist, came into our office a day or two since, and after relating some very curious things which had been predicted by him in the past, and had already been fulfilled, he asked him if he could forecast who would be the next President of the United States. "Well," said he, after pausing a moment, "it will be Douglas or Breckinridge. I am sure," said he, "that both of these gentlemen have a great work to do, and one or the other will be the next President of the United States."—Buff. Rep.

HONOLULU.—We are informed that a locomotive on the Railroad, traveling at a high rate of speed, last Sunday night, struck the person of a little girl, only nine or ten years old, who was caught up as she was playing in the ball and landed in his room, where the outrage was committed. We are also informed that parties are trying to look up the matter. We trust that our information is incorrect; it is signed to the whole transaction, though all we could have about it is given above.—Buff. Commercial.

The Washington correspondent of the Herald says the French government have never again employed purchasing and contracting for ships and munitions of war of various kinds. Some heavy contracts have already been made with leading manufacturers engaged in the manufacture of such material, to be delivered at the earliest possible moment.

The present panic about the crops, being in many places, has destroyed by frost, is all leading. The harvesting of one half of the crops wheat crop of the country had been completed when the frost came. In Virginia, Tennessee, and all the Southern States, the crops have been badly injured, in a few localities the wheat may be injured—but the great area of grain producing land is far south of the line of the late "cold spell."

The St. John's News learns from reliable authorities that orders have been received from England to dispatch the regiments of the line in Canada to England, and to back up the military efforts at Montreal and Toronto. Quebec and Kingston are to be the only garrison cities, and the headquarters of the Royal Canadian Rifles are to stand at St. John.

Mr. Buchanan received the degree of L. L. D. at the recent commencement at Chapel Hill, North Carolina. A correspondent of the Express says that "Mr. Buchanan was great credit for his efforts, especially among the young ladies." These Pennsylvania girls certainly did not know how to manage "an old gentleman." One Carolina girl would have asked him by name long ago. As it is, the habit of the White House need not be surprised to see the bewitching Miss A. there this winter, enjoying in the interesting situation so fittingly begun here.

FATAL ACCIDENT.—On the Niagara Falls train yesterday morning, a child was run over at the Junction by the morning train and instantly killed. The child was fairly run to pieces by the wheels of the cars, and fragments of the poor little thing were found clinging to the wheels, and scattered over the track.—Buff. Post.

THE CHASE.—A gentleman who returned to this city from Norfolk, Mass., yesterday, informed us that the wheat there is in full ear, that it is as good as it could be ready for harvesting in about three weeks, and that there are no signs yet of any insect plague.—Herald's Reporter.

In Newburyport, Alphonse North, for hitting the rear of a woman, has been sentenced to five years imprisonment in the State Prison.

NEWS SUMMARY

—Edwin Forrest at a meeting of the Grand Lodge of Masons, on Tuesday night, presented the Lodge with a check of \$500 being the amount of the ticket recently awarded him in the trial case against N. P. Wells. The same goes towards the fund for the relief of widows and orphans of Free Masons.

—The editor of the Pittsburgh Chronicle has been a star-bury in inches in circumference, and weighing 15 poundsweight.—Etc.

—The cost of the Utah army up to the end of the second quarter was over \$3,000,000, and add to this the estimate for the fiscal year, ending June 1, and the expense of that army for one year will range between seven and nine millions.

—Lewis Co., during the past year, has convicted one person of petit larceny, one for burglary and larceny, two for assault and battery, and one for violating the election law. Not a very large number, in comparison with other counties.

—A correspondent's rumor has been got up to the effect that Napoleon has paid a flying, but mysterious, visit to the Pope with whom he is represented as having had a midnight conference.

—A newspaper is about to be started under Canadian auspices, at Salford, England, on the 1st of June of this month. The paper and types are now on their way thither. Mr. Laurin, late of the Owen Sound (C. W.) Times, is to be the editor. Salford is some 450 miles North of St. Paul, and has about 1,000 inhabitants.

—The Washington correspondent of the Philadelphia Press says that there remains but \$200,000 to be paid towards Mount Vernon to complete the purchase, but that it will need three or four more years to properly fit up the grounds which is to be done under the most skillful horticultural guidance.

—Mrs. Seaborn, in her letter to young ladies, says that "every country girl knows how to order and with modesty." This (says a witty exchange) we believe to be an ethnological fact, as we have always noticed that, with all girls, the modesty they get the redder they are.

—Old James Bonaparte, we learn by private letter, said in Paris the other day with a desponding countenance: "The days of 1815 are coming again." "No, no, your highness," cried his companion. "You are not old enough yet," said the Prince. "To know anything about it. I lived through it all. I saw it all. I felt it all. I tell you, sir, we live again 1815."

—The Michigan has offered a reward of \$1,000 to any person who will give such information and evidence of the person guilty of the murder of Deputy Sheriff Robert Morrison, at West Troy, on the night of the 27th of May.

—Five Germans were drowned in a pond at Dayton, Ohio, on Friday last, while their wives and daughters were standing on the shore. They continued out in a richy hunt, and the bottom gave way.

—A Spanish proverb says that the Jews will discontinue at their passage, the Jews at their marriage, and the Christians at their law suits.

—An English inventor claims to have produced a gun discharging sixty shots per minute, with precision, with but little report, and without smoke, by electric decomposition of water.

—A descendant of General Howard, an English nobleman, and heir to property amounting to \$20,000, is said to be in the House of Refuge at Montreal. Managers are being taken for his release.

—The first day of the dog heat, on Monday, in New York brought four hundred and fifty dogs to the pound where, with the exception of five, they were all crowded at sunset.

—Yesterday, a young man, from Oswego, was in Syracuse, in search of his sister, who had taken up the life of a prostitute. He found her in a low house, and declared he would shoot her should she again visit such a place. She wept bitterly, and said she would do as she pleased. Her parents are wealthy and respectable.

—Troubles now-a-days about Watkins the colored couple. On Monday, a woman was held in jail in Rochester for attempting to produce abortion on a colored girl at his lodgings. Only a few days previous he was arrested for larceny.

—An Indian, belonging to Onondaga is helping Brother's jewelry store, Buffalo, on Friday, put them into his mouth to see them, and was detected in trying to substitute for one of the most valuable, a piece of imitation with which he had provided himself.

GIRL WANTED.
A GOOD GERMAN GIRL, Wanted, who understands all kinds of work. The best references given and required. Inquire at this office.

FIRE!! FIRE!!

Never Winked at the Store of S. A. Wilson, opposite of the Eagle Hotel, has on hand, and for sale, an splendid lot of Fine Wares as was ever brought into this market. Call on Hays, and see for yourself.

SPRING FASHIONS

MISS A. E. MAIRS

A Large and Splendid Assortment of

19. *Chrysomelidae* (continued)

An elderly spinster wrote to her friend:
"A widow with ten children, properly
and I have accepted. This is the minute
I should have been entitled to if I had
married at the proper time."

Courage, like cowardice, is undoubtedly
contagious, but some persons are not at
all susceptible.

There is man whose tongue might govern
multitudes, if he could only govern his
tongue.

A leading minister with almost every poli-
tician is always to keep his countenance
and never keep his word.

Swearing is a grinding of rusty machinery
a creaking of lubricated hinges, a family
of enemies, a kennel of harkings.

SUPREME COURT—COURT OF GENESSEE.
Case No. 10,000, *People vs. J. Smith*, Esq.
of the County of Genessee, charged with
the crime of Rape, committed on the 10th
day of March, 1894, at the City of Buffalo.
The Court, after hearing the evidence, and
reading the jury's verdict, pronounced the
sentence of the Court, to wit: That the
defendant, J. Smith, be confined to the
penitentiary for the term of ten years.

ALVIN FRANK, Sheriff of Genessee Co.
By L. R. O'Connell, Deputy.

Serofula, or King's Evil,

is a constitutional disease, a corruption of
the blood, by which the blood becomes
thickened, and the system is rendered
weak, and poor. Being in the circulation,
it pervades the whole body, and may be
seen in any part of it. No organ is free
from its attack, nor is there one which it
does not destroy. The serofulous taint is
variously caused by hereditary disease,
low living, disordered or unhealthy
habits, the depressing virus, and above all,
by the venereal infection. Whatever be its
cause, it is hereditary in the constitution,
descending "from parents to children unto
the third and fourth generation;" indeed,
it is the rod of Him who says, "I will visit
the iniquities of the fathers upon the children."

Its effects commence by deposition from the
blood, of corrupt or vitiated matter, which,
in the lungs, liver, and internal organs, is
termed tubercles; in the glands, swellings, and on the
surface, eruptions or sores. This foul corruption,
which gushes in the blood, deprives the
energy of life, so that serofulous constitutions
not only suffer from serofulous complaints,
but they have less power to withstand the attacks
of other diseases; consequently, vast numbers
perish by diseases which, although not serofu-
lous in their nature, are still rendered fatal by
this taint in the system. Most of the consumption
which decimates the human family has its
origin directly in this serofulous contamination;
and many destructive diseases of the liver, kid-
neys, brain, and, indeed, of all the organs, arise
from or are aggravated by the same cause.

One quarter of all our people are serofulous;
their persons are invaded by this lurking infection,
and their health is undermined by it. To
cleanse it from the system we must remove the
blood by an alterative medicine, and invigorate
it by healthy food and exercise. Such a medicine
we supply in

**AYER'S
Compound Extract of Sarsaparilla.**

the most efficient remedy which the medical
skill of our times can devise for this every-
where prevailing and fatal malady. It is com-
bined from the most active remedies that have
been discovered for the expurgation of this foul dis-
order from the blood, and the removal of the
system from its destructive consequences. Hence
it should be employed for the cure of not only
serofula, but also those other affections which
arise from it, such as ERYTHEMA, and SKIN
DISEASES, ST. ANTHONY'S FIRE, BOILS, or
FURUNCLES, PUSTULES, BLISTERS,
BLAINS and BOLLAS, TUMORS, TETTER,
and SALT RHEUM, SCALD HEAD, BURNING,
RHEUMATISM, SYPHILITIC and MERCURIAL
DISEASES, DROPSY, DYSENTERY, DEBILITY,
and, indeed, ALL COMPLAINTS ARISING FROM
VITiated OR IMPURE BLOOD. The popular
belief in "impurity of the blood," is founded
in truth, for serofula is a degeneration of the blood.
The particular purpose and virtue of this Sarsa-
parilla is to purify and regenerate this vital fluid,
without which sound health is impossible in
contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

are so composed that they cleanse within the range of
their action, and thus remove or evade them.
Their purgative properties are mild, and efficient,
and invigorate every portion of the human or-
ganism, correcting its diseased action, and restoring
its healthy vitality. As a consequence of
these properties, the invalid who is bowed down
with pain or physical debility is enabled to
find his health or energy renewed by a remedy
as safe as simple and efficient.

Not only do they cure the every-day com-
plaints of every body, but also many formidable
and dangerous diseases. The agent below named
is pleased to furnish gratis my American Al-
manac, containing certificates of their cures, and
directions for their use in the following com-
plaints: Constipation, Headaches, Rheumatic
affections, Stomachic Disorders, Indigestion,
Pain in the Head, Neuralgia, Dropsy, Flatulency,
Loss of Appetite, Jaundice, and other kindred
complaints, arising from a low state of the
body or obstruction of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness,
Croup, Bronchitis, Incipient Consump-
tion, and for the relief of Consumptive
Patients in advanced stages of the dis-
ease.

So wide is the field of its usefulness, and so
numerous are the cases of its cure, that almost
every section of country abounds in persons,
publicly known, who have been restored from
dying and even desperate diseases of the
lungs by its use. When once tried, its superi-
ority over every other medicine of its kind is too
apparent to escape observation, and where the
cures are known, the public no longer hesitate
what opinion to employ for the diminishing and
dangerous affections of the pulmonary organs
that are incident to our climate. While many
infectious venereal taints upon the community
have faded and been discarded, this has gained
friends by every trial, conferred benefits on the
suffering they can never forget, and produced
cures too numerous and too remarkable to be
forgotten.

**DR. J. C. AYER & CO.,
